aluminium framed Perspex® doors & panels

# what is alifrost®?

alifrost® aluminium framed Perspex® doors and panels are available in 8 designer frames with 40 genuine Perspex® acrylic and alimesh® inserts.

Alifrost® is a range of aluminium framed Perspex® doors & panels that give a superior glass appearance without the design limitations, installation, weight, safety and colour restrictions of traditional glass framed cabinet doors.

With an exclusive range of European designed frames, combined with the latest decorative Perspex® colours, alifrost® offers a modern look at a cost effective price.

Whether used to create that kitchen with "wow" factor, a modern entertainment unit, a wardrobe with a difference, light weight partitioning, feature panels, speaker covers\*\* or a cool room divider (see page 10), alifrost® offers designer appeal, numerous practical advantages and the confidence of a 10 year guarantee\* applicable on all genuine Perspex® grade inserts.

Start by selecting your desired frame and then choose your decorative Perspex® acrylic and or alimesh® insert.

To make things easier, alifrost® doors have been designed to work with a range of existing cabinet hardware solutions, including hinged, lift flap, lift up, bi-fold, sliding and drawer solutions. For more information on these hardware solutions, please visit the alifrost® website [www.alifrost.com.au](http://www.alifrost.com.au)

\*Conditions apply with guarantee. 10 year guarantee applies to Perspex® grade acrylic insert only and excludes frame, hardware and fixing methods.

\*\*Applies to AliMesh® inserts only

< 19 Square  
Clear Anodised 00001  
AliMesh is ideal for audio visual equipment and home theatres where air circulation is required to prevent over heating. It's also a great solution for speaker covers.

^ 9x55 Box / Hot Chocolate S25T33  
Create this unique coloured translucent effect with 'anti fingermark' finish, for easy cleaning. Doors can be back lit for extra "wow" factor.

^ 19 Square / Crystal Clear S2000

< 55 Slimline / Black 962  
This ultra thin frame design with superior high gloss insert, will not chip nor suffer the "rippling" effects normally seen with painted doors. Plus with a 55mm base, handles can be easily fitted directly through the Perspex® insert on site. You can also have a handle pre fitted with new Alihandle™, see [www.alifrost.com.au](http://www.alifrost.com.au) for more information.

# why alifrost®?

alifrost® doors are fashionable, practical, hygienic, safe and long lasting. They are made in Australia, from environmentally friendly materials, by a company you can trust.

**FASHIONABLE HIGH GLOSS:** When supplied with selected Perspex® high gloss inserts, alifrost® doors offer an ultra high (glass like) gloss appearance.

**PRACTICAL:** Alifrost® doors are easy to look after and will not chip like painted doors. When supplied with a Perspex® Frost insert, alifrost® doors have a unique 'anti fingermark' finish which reduces the need for cleaning.

**HYGIENIC:** Alifrost® doors are ultra hygienic making them ideal for food preparation areas like kitchens. This is because aliFrost® doors use Perspex® acrylic inserts, instead of glass, which does not promote bacterial growth such as E.Coli.

**SAFETY:** AliFrost® doors with Perspex® inserts offer superior impact resistance over glass doors. Unlike glass they will not shatter or shard into potentially harmful sharp particles.

**LONGEVITY:** Alifrost® doors with Perspex® inserts are half the weight of glass cabinet doors, making them much easier to use. Their light weight puts less stress on hardware components and makes larger doors or panels practical. Hollow aluminium frame construction ensures long lasting rigidity and fine line mitre joins.

**QUALITY:** Alifrost® doors are made to strict quality standards, by a 60 year old family business.

**RECYCLABLE:** Alifrost® cares for the environment. In all parts of its' operations, alifrost® takes its' responsibility to the environment very seriously. The two main components of an alifrost® door, aluminium and Perspex®, are both fully recyclable.

\*Conditions apply with guarantee. 10 year guarantee applies to Perspex® grade acrylic insert only and excludes frame, hardware and fixing methods.

^ 19 Square / Polar White S2030  
A combination of a light weight Perspex® insert and rigid hollow aluminium frame construction, make larger than normal lift ups like this, not just possible, but practical and affordable.

^ 55 Slimline / Grey 40  
For added WOW factor choose from our range of exciting Euromir® reflective gloss and new satin finish inserts.

< 9x55 Box / Polar White S2030  
Superior impact resistance over glass doors and easy cleaning, makes these doors child friendly and ideal for lower cabinet doors.

# alifrost® frames

8 latest european frame designs, hollow construction for added rigidity and a thicker anodised coating for longevity

# alifrost® applications

From **kitchens** to **alfresco** areas and everything in between, alifrost® framed Perspex® doors & panels are as **versatile** as they are beautiful.

Some typical applications for alifrost®;

1. Kitchen / bathroom doors, drawers & lift up panels
2. Entertainment units - Did you know, that a remote control will work through most Perspex® inserts\*
3. Speaker covers - alimesh® only
4. Large sliding panels and room dividers - light weight reduces costs and increases functionality
5. Alfresco kitchens - Perspex® is guaranteed for 10 years in exterior applications such as alifrost® doors.\*
6. Signage (see AliSign® @ [www.alifrost.com.au](http://www.alifrost.com.au))

< 19 Square  
Polar White S2030

# alifrost® extras

Customise your designs with **print**, **powder coated frames**, **integrated handles** and multiple insert options.

What makes alifrost® truly unique is the ability to customised your designs;

1. Printed patterns (see page 10 - top right), available on request, minimum qty's apply
2. Custom colours and powder coated frames, available on request, minimum qty's apply
3. NEW alihandle™ - Integrated handle (see page 5), available on all frames
4. Multiple inserts with alirail® (see opposite)

**AliRail**  
> Cross rail for multiple inserts & added rigidity  
> Suitable for 19 Square, 9x55 Box & 43x55 Flat frames  
> Recommended for doors & panels larger than 1.92 sqm

< 9x55 Box with alirail®  
Clear Anodised 00001

\*Remote control will not work through Euromir reflective and pearlescent inserts.  
\*Exterior applications exclude 55 Slimline frame and apply to selected Perspex Gloss (NT) and Perspex Frost inserts only. Conditions apply with guarantee. 10 year guarantee applies to Perspex grade acrylic insert only and excludes frame, hardware and fixing methods.

^ 55 Slimline / Black 962 with custom pattern  
Looking for something truly unique? Talk to us about custom designed patterns such as this motif printed in matt black on top of the gloss Black 962 surface. The end result is a subtle combination of gloss and matt finishes, which creates an amazing look.

^ 46 Step / Glacier Green S26T21

< 55 Slimline / Black 962  
Superior high gloss finish that creates a perfect sheen, with no "rippling" effects normally seen with traditional two-pack MDF painted doors. Plus unlike glass doors drill directly through the Perspex® to fit your handles where you like. You can also have a handle pre fitted with new Alihandle™, see [www.alifrost.com.au](http://www.alifrost.com.au) for more information.
