The glazing system explained

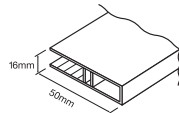

The H-Bar system makes handling and installation easy and flexible. The Makrolon® Multiwall sheets simply slot into the H-Bar ready for fixing to the structure. The glazing bar system allows for thermal expansion and eliminates the need for penetrations through the sheet, making the structure watertight.

Accessories

Aluminium Edge Bar

Standard Colours:
Mill Finish, Black, White
Standard Length: 5m

Easy slot in installation.
Use to start and finish H-Bar assembly.
